

## Team Journal – Day 19

### Monday 10<sup>th</sup> April

Fully rested after our day off, we returned to the range this morning to find a more overcast and cooler day than those we enjoyed last week. Flags were pointing to a following wind of some speed and indecision as to direction.

First up was the Jack Mitchley - a stand-alone 300m competition. The wind posed few real problems here (but perhaps a few imaginary ones). The team collectively managed to post 15 possibles with 50.8 being the closest any of the team managed to the perfect score.

Next came the Presidents Cup at 600m and 800m. Here the wind was more challenging. Because the day was cooler the movement of the mirage was difficult to see clearly and changes were quick enough so that what could be seen before going on aim could have changed dramatically by the time the shot was fired. Although the team managed to put 8 possibles on the board at 600m no-one went clean at 800m and the GB high score was 149.22 from DC, followed by Richard Jeens (149.20 - gaining high score at 800m with 49.8) and your correspondent (149.18).

The afternoon was set aside for tie shoots. Slightly unusually, for us at any rate, they included tie shoots for second and third places. First up was for those who scored 50.8 in the Jack Mitchley this morning, shooting for 2<sup>nd</sup> and subsequent places. This was an all GB tie shoot, including David, Jonathan Haward, Nick, Matt, Paul and your correspondent. The former three did not shoot because of the need to spend the afternoon perusing score sheets and selecting a team for tomorrow's all-important international match. Therefore, it was the latter three and Ian Robertson (of the RAF club, here as an individual) who laid down to shoot just three to count. After those shots Paul and your correspondent were tied. It took two more sudden death shots for the tie to be resolved in Paul's favour. After that there were to be more tie shoots, involving Richard Shouler, Jonathan Holmes and Paul (again). However, just as Richard was getting limbered up news came that there had been a revision of the plan and that there would not now be tie shoots for 2<sup>nd</sup> and 3<sup>rd</sup> places. Whether the tie shoot which did take place was to have any relevance after all was not made clear.

Your correspondent and Matt congratulate tie-shottist supremo Paul

The next order of business was a team meeting at 6 and the announcement of the team for tomorrow's Protea Match. The team is set out below. We will let our readers know the outcome as soon as possible as well as pending results (including the Grand Aggregate which finished today at lunchtime)
