

## Team Journal – Day 20

### Tuesday 11<sup>th</sup> April

This morning is the State Presidents 2<sup>nd</sup> Stage - following the Queens II format of 10 to count at 300m, 500m and 600m. We drove to the range under threatening, heavy clouds and even a few spots of rain, but half an hour later, at the start of the first detail at 8 a.m., the sun was out.

We can report some important results which were posted overnight. The Grand Aggregate was won by DC for the sixth time (1996 and 2001-2004 inclusive). We should report the sad tale of Alexander Coetzee who has led the Grand throughout but was given a miss in his final shoot with the result that he came in 2<sup>nd</sup> to DC by only 2 points. Also in the top twenty of the Grand were Nigel Ball (9<sup>th</sup>), Jeremy Langley (10<sup>th</sup>), Jonathan Holmes (11<sup>th</sup>), your correspondent (13<sup>th</sup>), Richard Jeens (16<sup>th</sup>), Richard Shouler (18<sup>th</sup>) and Stuart Collings (20<sup>th</sup>). In a tribute to the consistency of DC's shooting he also won the Bramley Chain - a running total of the last three years' Grand Aggregates - by a clear 12 points.

A further good result for the GB team was Jeremy's winning of the General Koos de la Rey Trophy. This is the aggregate of the three Queens I shoots in the Championship - which Jeremy cleaned. This, according to Bryan Smith, is only the second time that the competition has been won without dropping a point. Bryan knows because he achieved this feat in 2000. He added, with a wry smile, that he had hit the v-bull considerably more times than Jeremy.

The GB team members had a pleasing number of entries in the top places of other competitions announced today. In both the Short and Long Range Aggregates there were three in the top ten (Ball (2<sup>nd</sup>), DC (5<sup>th</sup>) Langley (9<sup>th</sup>) and Calvert (3<sup>rd</sup>) your correspondent (4<sup>th</sup>) and Jeens (7<sup>th</sup>) respectively).

In the 2<sup>nd</sup> stage things started promisingly for the members of the team. There were 12 possibles at 300m and 13 at 500m. At 600m conditions were a bit more tricky with our old friend the fishtail back in play and it was possible to get caught in the aim, but the wind was not strong and the mirage was readable. The team posted six clean slates here. By the end of second detail we had four 150s on the board. It was very much the Coaches day, with all three of them claiming the top slots. Nick and Stuart each had 18 v-bulls (of course the rivalry between the two of them is such that the diary should record that on count-back (furthest range gets greatest credit) Stuart won the day) and DC 16. The only non-coach possible was put up by Jonathan Holmes which meant that he outstrips the rest of the team in qualifying with no points dropped in either the first or second Stage and, in fact, coming 2<sup>nd</sup> overall. The

Presidents follows the format of the Georges at Bisley in that the 1<sup>st</sup> and 2<sup>nd</sup> Stage combined scores are used to decide who qualifies for the 3<sup>rd</sup> Stage but the final result does not include the Stage 1 scores. Going into the 3<sup>rd</sup> Stage, therefore, it is the above-named four who start with a clean slate.

After a break for lunch it was time for the Protea International Match. Taking on the South African Team on its own turf was always going to provide a fiercely competitive match.

It has to be said that we did ourselves no favours at 300m. Given the scores over the last two days one could be reasonably confident of a slew of possibles. This confidence was not rewarded and, as a team, we dropped 11 points to the South Africans 3. At 600m we pretty much held our own - each team dropped 6 points, although the South Africans were hitting the centre bull more often than us. However, if the writing was not already on the wall it certainly was by halfway through the 900m range. The South Africans had six possibles on their board while ours showed 8 points dropped over the same number of firers. The tide had turned somewhat by the end of the range - we had dropped 16 points to the South African's

14. The final totals were SA 1777.200, GB 1767.155. This represented a record score for the Protea Match and, as a team, we recognised that the SA team had had a marvellous day's shooting

... and the GB board - top score by Rupert Dix

The GB team congratulate the SA team on a very good day's shooting.

It was a rather deflated team which attended the Protea dinner on the range that evening. We have had considerable individual success here, notably DC's win in the Grand and four team members entering the Presidents final stage with a clean score sheet. The Protea Match, however, was the big one and we were outshot on the day by an extremely capable team shooting at its very best.

The Captain and Chief Coach present awards to the South African captain, top scorer and coach.
